Birds

Learning Objective

Students to learn about different kinds of birds and in the process, build essential reading and comprehension skills

Graded Assignment

Pick any one bird of your choice and research it online or at the library.

Write a report and state all necessary information about your chosen bird (like what type of bird it is, where it is found, its body parts, what it eats etc)

Learning Outcomes

lambkinz animated books are designed with slow paced gentle animation that promotes learning in contrast with fast paced imagery that overloads the young mind.

lambkinz promotes & aims to provide healthy digital learning through safe and effective screentime so your kids can watch, read & learn better.

lambkinz animated books follow a read-along approach for kids to read, recognize, recall and retain better through sight, sound, language and animation.

Through lambkinz animated books and it's complementary learning activities kids learn new words, narratives, morals & values and go beyond the ordinary learning cycle.

Note for Teachers

lambkinz learning activities and resources makes learning in class and home fun. Each Learning Activity contains an assortment of tasks that include (but are not limited to):

Question Answers, Physical Activities, Writing Exercises & Art Projects that promote critical analysis, creative thinking & character building.

Every lambkinz animated book comes with it's dedicated learning activity that helps kids explore beyond the story.

We encourage teachers and parents to interact with their kids and go beyond the scope of each learning activity for in-class assignments and homework.

All learning activities for lambkinz animated books are prepared in collaboration with Teachers' Resource Centre
